**INTENSE NUTRIENTS HQ**

Unit 12 Lovedere Business Park, Goathurst, Somerset, UK TA5 2DD

TOP OF THE  
FOOD CHAIN

# KICKSTART

**KICKSTART** contains a full complement of all the micro and macro elements that are crucial for a plant's early development. Introducing **KICKSTART** will increase the efficiency and development of young plants by developing a stronger root structure and ensuring healthy and vigorous growth until they move onto the main base nutrient for their vegetative phase.

## GUARANTEED ANALYSIS:

Total Nitrogen	2.5%
Phosphorous Pentoxide	1.0%
Phosphorous Pentoxide soluble in water	1.0%
Potassium Oxide	3.4%
Potassium Oxide soluble in water	3.4%

# GO

GO is formulated for plants grown in all growing media, and will speed up plant metabolism, shorten internodal spacing and give plants the best possible platform for flowering.

#### GUARANTEED ANALYSIS:

Contains natural plant hormones, sugars and full trace element complement.

# GO+

**GO+** All the benefits of standard GO, but with supplemental additives to help guard naturally against pests and diseases.

#### GUARANTEED ANALYSIS:

Contains natural plant hormones, sugars, full trace element complement and added garlic to ward off pests and disease.

# HYDRO GROW

**HYDRO GROW** and **HYDRO BLOOM** are the go-to A&B plant nutrients tailored specifically for growers using hydroponic systems.

During the crucial vegetative stage, **HYDRO GROW** delivers the perfect blend of nutrients for vigorous root growth and structural development.

## GROW A GUARANTEED ANALYSIS:

Nitrogen	5.00%
Ammoniacal	1.16%
Nitrate	3.63%
Phosphorus	0.01%
Potassium	2.81%
Calcium	2.91%
Magnesium	0.041%

## GROW B GUARANTEED ANALYSIS:

Nitrogen	1.01%
Nitrate	1.11%
Phosphorus Pentoxide	2.82%
Potassium Oxide	5.61%
Magnesium Oxide	1.61%

# HYDRO BLOOM

Unlocking the full potential of your plants during the flowering stage, **HYDRO BLOOM** will maximise resin production, producing heavy blooms and exceptional yields.

The precise quantity and combination of key micro nutrients with make-up Hydro Bloom will support the production of vitamins and enzymes, allowing your plants to process the available nitrogen.

## HYDRO BLOOM A GUARANTEED ANALYSIS

Nitrogen	2.99%
Ammoniacal	0.22%
Nitrate	3.01%
Potassium Oxide	5.05%
Calcium Oxide	2.53%

## HYDRO BLOOM B GUARANTEED ANALYSIS

Nitrogen	1.21%
Nitrate	1.01%
Phosphorus Pentoxide	4.23%
Potassium Oxide	6.01%
Magnesium Oxide	2.01%

# COCO

COCO has been developed as a professional grade mineral-based 2-part premium nutrient specifically formulated for plants grown in coco coir. Its unique composition contains all the essential micro and macronutrients required to complement the specific properties of coco, maximising plant performance at all stages of growth.

## COCO A GUARANTEED ANALYSIS:

Nitrogen	4.27%
Magnesium Oxide	0.90%
Calcium Oxide	6.4%

## COCO B GUARANTEED ANALYSIS:

Nitrogen	0.02%
Phosphorus	4.01%
Potassium	3.31%
Iron	0.04%
Magnesium	0.49%
Zinc	0.011%

# 60/40

60/40 is a 2-part premium mineral-based feed specifically formulated for plants grown in mixed substrate.

Consisting of a unique composition containing all the essential micro and macronutrients required, 60/40 maximises plant performance at all stages of growth. 60/40 not only contains an important source of calcium and magnesium but prevents deficiencies and stabilises pH levels in 60/40 substrate whilst boosting nutrient absorption in the root zone

## 60/40 A GUARANTEED ANALYSIS:

Nitrogen	4.61%
Magnesium Oxide	1.12%
Calcium Oxide	6.83%

## 60/40 B GUARANTEED ANALYSIS:

Nitrogen	0.01%
Phosphorus Oxide	4.11%
Potassium	3.21%
Iron	0.05%
Magnesium Oxide	1.97%
Zinc	0.009%

# DIRT GROW

Intense Nutrients **DIRT GROW** and **BLOOM** have a unique composition that maximises plant performance at all stages of growth. Formulated for plants grown in all soil-based growing mediums, **DIRT** provides your plants with everything they need during the vegetative and flowering stages of growth.

Comprising of the perfect blend of essential macro and micronutrients **DIRT** provides a stable and biological balance of the substrate whilst bringing your plants to life.

## GUARANTEED ANALYSIS:

Nitrogen	3.0%
Phosphorus Pentoxide	1.0%
Potassium Oxide	4.0%
Magnesium Oxide	1.0%

# DIRT BLOOM

## GUARANTEED ANALYSIS:

Nitrogen	2.0%
Phosphorus Pentoxide	2.0%
Potassium Oxide	4.0%
Magnesium Oxide	0.8%

# Organix Grow

Developed for the environmentally conscious grower, **ORGANIX GROW** and **BLOOM** will feed the beneficial fungi and micro organisms within the growing media without the need for any additional chemicals.

Specifically formulated to provide optimal sustenance for plants throughout the vegetative and flowering period, our organic feed is packed with the micro and macronutrients needed to stimulate growth **ORGANIX** improves soil structure leading to the development of strong shoot formation. Expect exceptional flowering and healthy yields.

## GUARANTEED ANALYSIS:

Total Nitrogen	5.0%
Phosphorous Pentoxide	3.0 (1.3%P)
Phosphorous Pentoxide	3.0 (1.3%P)
soluble in water	
Potassium oxide	3.0 (2.5%K)

# Organix Bloom

## GUARANTEED ANALYSIS:

Total Nitrogen	3.0%
Phosphorous Pentoxide	5.0 (2.2%P)
Phosphorous Pentoxide	5.0 (2.2%P)
soluble in water	
Potassium oxide	4.0 (3.3%K)

# OG

The **OG** range is formulated for plants grown in mixed substrate.

Our innovative granular inoculant for powerful root growth! Available in 350g and 700g, **OG** Granules contain beneficial fungi that live in partnership with plant roots, providing nutrition and protection.

**OG** also contains naturally occurring fungi which help protect against pathogens and stress as well as saponins and humate extracts of organic matter.

- Stimulation and promotion of root growth
- Improved plant nutrition (especially in adverse conditions)
- Nitrogen fixation
- Improved disease resistance
- Enhanced stress resistance (environmental and toxic stress)
- An increase in microbes
- Improved soil quality and structure

**OG** COCO is specifically designed for plants grown in coco coir.

# DOWN N' DIRTY

**DOWN N' DIRTY** is specifically designed to quickly bring the pH of your nutrient solution down for any type of substrate without harming the microbes in the soil, optimising the balance between acidity and alkalinity which accelerates growth and prevents deficiencies occurring in the plant.

**DOWN N' DIRTY** also acts as a high-performance pipe cleaner, preventing the build-up of mineral deposits within reservoirs. Our unique formula removes blockages of bacterial slime and algae as well as prevents salt build-up and fungi growth in your hydroponic systems.

Use as a preventative measure to ensure optimal functionality throughout the entire cycle.

## GUARANTEED ANALYSIS:

Contains:

Methanesulfonic acid

Citric acid.

# FOUNDATION **ROOTS** STIMULANT

**FOUNDATION** promotes explosive root development by stimulating the growth of beneficial micro-organisms within your growing medium, making your plant less susceptible to root born pathogens. A rapidly growing root system allows your plant to uptake the maximum amount of nutrition, resulting in your plants growing much more vigorously.

## GUARANTEED ANALYSIS:

Plant Biostimulant	0.1-0.1-0.3	Phosphorus Pentoxide	0.1%
Nitrogen	0.1%	Potassium Oxide	0.3%

# RUNLYME

**RUNZYME** is a highly developed comprehensive blend of enzymes which specifically target the source and cause of dead root material and root binding.

Runzyme breaks down and recycles the dead organic matter within the plant root system, turning it into usable nutrients for the plant whilst also preventing root rot and other diseases. Incorporating Runzyme into your feeding schedule will prove to be an effective defence against root-borne pathogens, keeping your root zone healthy, leading to happy plants.

- Promotes growth of beneficial microorganisms
- Removes dead roots
- Helps keep the rhizosphere disease-free
- Creates space for new root growth
- Breaks down dead matter into food
- Improves nutrient cycling
- Suitable for all types of grow mediums

# MAG-CAL

Formulated for plants grown in all growing mediums, Intense Nutrients' **MAG-CAL** not only delivers better yields, but its unique formula affects the physiological and biochemical processes in your plants, serving as an activator for many specific enzymes required in plant growth. **MAG-CAL** contains a highly soluble form of calcium and magnesium, the two vital elements for strong lush plant growth, it will correct calcium and magnesium deficiency, significantly affecting the physiological and biochemical processes in your plants.

## GUARANTEED ANALYSIS:

Nitrogen	2.9%	Manganese chelated by EDTA	0.01%
Calcium Oxide	5.0%	Zinc chelated by EDTA	0.006%
Magnesium Oxide	2.5%	Iron chelated by EDTA	0.04%

# WIDE LOAD BOOST

**WIDE LOAD BOOST** is an advanced formula which works symbiotically alongside our base nutrients, supercharging your plants metabolism. Wide Load Boost will dependably ripen your fruiting crops, boost crop immunity and promote photosynthesis, resulting in unrivalled health for your plants.

Wide Load Boost also reinforces your plants, offering that extra protection against the negative effects of environmental stresses your plant might be under. Plant development will be speeded up, leading to faster finishing and consistently higher yields and quality.

Suitable for use with all growing mediums and substrates.

# PK PHITE

**PK PHITE** is the only PK additive formulated using Phosphite, allowing it to be more easily absorbed and mobile within the plant.

Our specialised plant nutrient combines the potent properties of Potassium Oxide and Phosphite to serve as a powerful flowering additive. Together, these elements synergistically encourage exceptional growth and fruiting, resulting in larger, more vibrant blooms and higher-quality yields whilst increasing the plant's resilience against environmental stressors.

Intense Nutrient **PK PHITE** also has anti-fungal properties that helps to guard against powdery mildew, leafspot fungus and botrytis.

## GUARANTEED ANALYSIS

Potassium Oxide	10.0%
Phosphite	16.4%

# Climax

**CLIMAX** is one of the most sophisticated finishing products on the market and is used for the last week or two before harvesting. **CLIMAX** contains the essential elements required to get your plants over the finish line. The unique composition will increase essential oil production, improve nutrient uptake and force your plants to finish evenly and on schedule.

Whilst helping to ripen the plant, it also flushes any excess nutrients out, providing a final boost to your plants before harvest time.

Bring your plants to an explosive finish!

## GUARANTEED ANALYSIS:

Total Nitrogen	0.0%
Phosphorous Pentoxide	9.9%
Phosphorous Pentoxide soluble in water	9.9%
Potassium Oxide	7.0%
Potassium Oxide soluble in water	7.0%

Intense Nutrients proudly presents the Ultra collection, for the most demanding of growers. An essential new range of super-premium products, for those seeking to push the boundaries of their plants' potential.

Dramatically increases terpene production and is a potent phosphorus and potassium booster that promotes flowering and fruiting in your plants.

**SILICON**  
*Ultra*

Provides silicic supercharging for your plants' defences and metabolism, with unsurpassed bioavailability.

**ROOTS**  
*Ultra*

A specialised premium root stimulator that promotes vigorous development, setting the standard for explosive root growth.
